## DICING TAPE APPLYING APPARATUS AND BACK-GRINDING/DICING TAPE APPLYING SYSTEM

5

## ABSTRACT OF THE INVENTION

A dicing tape applying apparatus, comprising a precut dicing tape edge position detector detecting the edge
of a pre-cut dicing tape and a cutter cutting a non-cut
dicing tape into a desired shape when it is applied, and
able to use both the non-cut dicing tape and the pre-cut
dicing tape, has been disclosed.
